SUMMARY

Front-end developer with experience in creating modern, responsive, and user-focused interfaces. I primarily work with React, JavaScript, SCSS, and Tailwind CSS, developing interactive web applications using a component-based architecture. I also have experience with API integration, databases with Supabase, and automated testing with Jest. I am seeking opportunities to contribute to real-world projects, grow technically, and develop high-quality web solutions.

TECHNICAL SKILL

- Frontend: HTML5, CSS3, SCSS / Tailwind CSS, JavaScript (ES6+), React
- Backend & Database: Supabase, Integração com REST APIs
- Tests: Jest
- Tools: Git, GitHub, Vercel, Netlify

FREELANCE PROJECT

- **2025 | DANCER PORTFOLIO WEBSITE**

Development of a responsive portfolio for a dancer, using HTML, CSS, JavaScript, and jQuery. The site highlights performances, history, and projects in a clean and interactive format.

PERSONAL PROJECTS

- **2023 | GUESS MY NUMBER GAME**

A fun and interactive number guessing game, built with HTML, SCSS, and JavaScript. It features scoring and dynamic feedback for an engaging user experience.

[Guess My Number Game](#)

- **2025 | DANCER PORTFOLIO WEBSITE**

A modern and responsive portfolio for dancers, built with React, CSS, and jQuery. Highlights include biography, videos, and performance projects.

[Perninha Website](#)

- **2025 | REST COUNTRIES API WITH THEME**

An interactive project that consumes data from a public API using pure JavaScript (Vanilla JS). It displays dynamic information about countries, including name, capital, and flag, using the World Info API.
